

Why Affiliating Free Traffic System?

Free Traffic System is a free service, and we do not pay any money to our affiliates, but we reward them with something better - unlimited one way links.

All those who have been referred by you personally (your 1st level referrals) will share a portion of all backlinks they are generating in Free Traffic System with YOU.

Moreover, the people brought by your 1st level referrals will also share a portion of all backlinks they generate here with YOU.

With the help of this **2-tier affiliate program** who can forget about constant fight for the backlinks.

Why 2-tier is a Code Word?

The majority of people do not have big client lists, but 2-tier can be your secret key to tons of bonus backlinks in our affiliate program.

I am sure that you know at least one Internet marketing guru. Not in private, of course, but maybe this guru was more attentive to your emails and replied personally, or you helped this guru once by noticing a mistake in his/her salescopy and corrected it and got thanked. No matter why exactly - but you have a sort of 'personal touch' with that person.

Then it's simple - tell this guru there is a free service that rewards affiliates and (VERY IMPORTANT) has 2-tier affiliate program. Maybe, for you 2-tier is not magic, but natural-born affiliates instantly wake up. They understand that when the project is great and it has 2-tier - you need to act, otherwise other gurus-competitors will start hugely promoting it and wipe out the whole market.

And YOU will get backlinks from the people referred by this guru. In other words, LOTS OF BACKLINKS!

Just tell them "2-tier" - it is a code word for making every natural-born affiliate to start listening.

Promote Unlimited Sites with Bonus Backlinks!

Having created the 2-tier we understood that we need to give you possibility to promote several sites at the same moment with the help of bonus backlinks.

That is why now our Affiliate Page got a new instrument - you can add different sites to our affiliate program, and Free Traffic System will build bonus backlinks for them.

Let's say you decided to promote 2 sites of yours - Site A and Site B.

For Site A you decided to get backlinks on keywords:

site A

my lovely site A

And for Site B you chose keywords:

site B

fancy site B

I hate site A

Login to your Free Traffic System members area, go to Affiliate Page and add your Site A details to the Keywords and Links section, like this:

Keywords:

site A
my lovely site A

Delete

Links:

http://www.siteA.com

+Add

Update

Your Keywords

URL of Site A

NOTE: Make sure you separate keywords and links with Enter Breaks - NO COMMAS! Look the way we have done it on the screenshot to see the correct version of separating the keywords.

Ok, Site A details added - time for the Site B. Click the +Add button under the web forms for keywords and links - and it will open a new pair of web forms, for the new keywords and links.

Keywords:

site A
my lovely site A

Delete

Links:

http://www.siteA.com

site B
fancy site B
I hate site A

Delete

http://www.siteB.com
http://www.siteB.com/page/

+Add

Update

Site B links and keywords

Once you have added everything you need, click Update. If you have forgotten to click Update button, Free Traffic System will not save this information.

And if you decided to stop building backlinks for any of the sites in the affiliate area, then click the Delete button under the pair of keywords and links that you want to delete, and click Update.

P.S. Don't forget that on the Affiliate Page you have lots of promo materials, including the rebrandable PDF with very useful tips about link building - you can insert your Free Traffic System affiliate link into this PDF and people will click it when reading the useful SEO info.
